Dear Ahmad Rafii,

On April 29, 2025, California Department of Cannabis Control (Department) placed cannabis under embargo pursuant to Business and Professions Code (BPC) section 26039.3. The embargoed inventory is documented in the Supplemental Notice of Embargo. The basis for placing these items under embargo was that the Department found or has probable cause to believe the cannabis or cannabis product is adulterated, misbranded, or its sale would violate the Medicinal and Adult-Use Regulation and Safety Act (MAUCRSA) (Bus. & Prof. Code § 26000 et seq.). Pursuant to California Code of Regulations (CCR), title 4, section 17801.5, subdivision (c), the Department provided a Notice directing you to submit a plan that describes how you will address the items under embargo and the issues that resulted in the embargo.

On June 18, 2025, a written response was submitted to the Department via email by the licensee, requesting that the Department allow the licensee to physically place the said corresponding UID METRC tags on the fresh frozen cannabis flower and unfinished manufactured cannabis (items 1-9) of the Supplemental Embargo Notice Inventory list. No other information/records were provided as part of the response to the Supplemental Notice of Embargo as it pertained to these items. Licensee failed to provide adequate information/records as to the source of the items listed in 1-9 that did not have any adequate identifying information when observed during the visit. After reviewing the information gathered and your request, the Department has determined that the fresh frozen cannabis product identified in items 1-9 of the Supplemental Embargo Notice must be disposed of in accordance with the regulations because the Department cannot confidently source the fresh frozen cannabis or the unfinished manufactured cannabis.

Further, the June 18, 2025 licensee's written response also requested that the licensee be allowed to remediate items 11-16, which include the 1,305 infused pre-rolls (Woodstock Live Rosin Infused 1-gram pre-rolls) with no UID information and the 1,300 infused pre-rolls (Woodstock Live Rosin Infused 1-gram pre-rolls) with the following UID's (1A4060300009D17000003794, 1A4060300009D17000003796, 1A4060300009D17000003795), after they were repackaged and relabeled without Department approval. In the written response, licensee failed to provide adequate verification or records that would help source the pre-rolls; nor did the licensee provide UID information.

The Licensee also requested the Department's approval to remediate the Woodstock Live Rosin Infused 1-gram pre-rolls that did have a UID affixed (1A4060300009D17000003794, 1A4060300009D17000003796, 1A4060300009D17000003795) and were admittedly repackaged after passing compliance testing (COA). The Department cannot approve this request as doing so would violate the regulatory requirements regarding allowable relabeling and repackaging under CCR, title 4, section 15303 (Packaging, Labeling, and Rolling). In any event, the licensee failed to provide adequate information that could source these items that did not match the photo image on the COA's that corresponded with the UID listed above. After reviewing the information gathered and your request, the Department has determined that the above-mentioned pre-rolls identified in items 11-16 of the Supplemental Embargo Notice must be disposed of in accordance with the regulations because the Department cannot confidently source the pre-rolls and the request to remediate these items is not allowable per the Department's regulations.

The licensee requested the ability to voluntarily destroy the Live Oro Dreamzzz Beverage, UID 1A4060300003F00000003758, item 10 of the Supplemental Embargo Notice Inventory list, as the licensee acknowledged the cannabis product to be non-compliant. After review, the Department approves this request.

In accordance with CCR, title 4, section 17801.5, subdivision (d)(1), the Department could not determine that the plan that was submitted would resolve the issues that resulted in the Embargo and that the licensee comply with all provisions of the Act.

**Be advised:** The items listed herein will remain under embargo until the embargo is lifted by the Department. While the embargo is in place, the items cannot be removed, sold, or disposed of without authorization of the Department or a court. The tag or marking may only be removed from the cannabis or cannabis products by a Department representative. Failure to abide by the embargo is subject to administrative fines up to \$10,000 for each item.

If you have any questions regarding this notice of Embargo Determination, please contact Ruby Ocegueda via email at [ruby.ocegueda@cannabis.ca.gov](mailto:ruby.ocegueda@cannabis.ca.gov).
